

MMAT 2017

Architecture Guided Tour of Meguro City Office Complex 2017

Meguro City Office Complex (ex Headquarter Building of Chiyoda Life Insurance, Co.) completed in 1966 is the building passionately designed by the architect Togo Murano (1891-1984). The MMAT Architecture Guided Tour of this building started in 2004 exploring the details and characteristics of his designing and building process of this building. The tour has been organized every year gathering more than 200 people each year since then, which proves strong interests in the architect Togo Murano. MMAT has organized the addition of the English courses as follows, in hope to share the excitement of learning how the building was designed and built with wider spectrum of people.

The Architecture Guided Tour of Meguro City Office Complex in English

Time/Date: Course (3) May 12, Friday, 2017 - 14:00~16:00

Course (4) May 20, Saturday, 2017 – 14:00~16:00

Capacity : approximately 10 people for both courses (3) and (4)

The applications for both courses can only be accepted by e-mail from Wed, April 19, 2017, on “first-come, first-served” basis. Please send the following information by e-mail to MMAT (mmat-event@mmat.jp);

Re: Architecture Guided Tour of Meguro City Office Complex in English

The desired course

The number of people

Name, address, telephone number (and fax number if available), mail address

Questions and inquiries can be sent only by e-mails.
